ANNUAL MEETING MONDAY NIGHT.

Florida East Coast Automobile Association
Will Meet.—President Paine Will
Likely Succeed Himself.

The annual meeting of the Florida East Coast Automobile Association is scheduled to take place next Monday evening at 7:30, at the Club House on the beach.

The election of officers and other important business will come up at this meeting.

Asa Paine, who has filled the position since the resignation of President Steek

last summer, will likely succeed himself, as members of the association almost to a unit are pleased with the manner in which he has looked after the destinies of the club throughout his term of office, and during the automobile tournament of last month.

The association has in anticipation a greater race meet next year than ever before, and no doubt the race matters will be briefly discussed.

Mr. and Mrs. I. Wilson, of Dayton, have joined the colony of Ohio people at The Austin.

D. Auld, Jr., of Chattanooga, who is a guest of The Desland, has with him his little launch Louise. The boat is affording Mr. Auld much pleasure. Friday she was hauled up at McDonald's Boat Yard for minor repairs.

Jocelyn and Kathryn Maley have returned to Mrs. Haynes' Kindergarten, after a week in DeLand, where they visited the kindergarten at Stetson University.

There was a slight change for the better in the condition of A. F. Perkins, of Daytona Beach, several days ago, but his friends will regret to learn that he is again very much worse.

ROCKLEDGE BOAT RACES.

E. L. Shear Carries Off Second Honors in a Ten Mile Event.—The H. R. Y. C. Also Raced.

Commodore J. H. Allen, of the Halifax River Yacht Club, and E. L. Shear, also a member of the club, returned Friday afternoon from a visit to Titusville and Rockledge. At the latter place they spent Washington's birthday and attended the motorboat races there, which proved an exciting event.

In the ten mile race Mr. Shear's boat was one of the participants and was successful in carrying off second honors.

There was another race, a seven and a half miles, which attracted considerable attention and in which good speed was attained.

E. T. Conrad, with his racer the H. R. Y. C., was in the races, but did not carry off any of the prizes.

Real Estate News.

John Hunt, of New York City, has purchased the Collins property at Seabreeze, from M. K. Knowlton, who recently acquired it. The property is a modern residence of eight rooms, and has spacious grounds. Smith & Thomas engineered the deal.

Silas P. Hubbel, of New York, has enlarged his realty holdings at Daytona Beach, by the purchase of a lot on Palmetto Street, and one on Live Oak Avenue. The consideration was \$400. Butler & Williams sold the property.

*FOR SALE—One of the most beautifully situated homes in Florida, 100 feet above sea level, overlooking clear spring fed lake, with views of hills for some miles. Absolutely healthy, with delightful country for riding and driving. Spacious residence, twenty-five rooms, possession at once, completely furnished if desired for this season. An ideal place for wealthy family. 375 acres, sixty of which is in choice budded fruit. Address Box 3, Saint Leo, Pasco County, Fla. ced

The Clarendon kindergarten children are busy studying the life of a soldier as lived by George Washington. The beach is dotted with sand forts and miniature cannon made of paper.

AN ENJOYABLE SOCIAL AFFAIR.

Schmidt's Villa the Scene Last Evening of the Pleasantest Social Functions of the Season.

Miss Host Henry Schmidt and his estimable lady were the hosts in one of the pleasantest social functions of the season, at their beautiful Villa last evening. The spacious rooms were beautifully decorated with potted plants and flowers and were a blaze of light and cheerfulness.

The assemblage numbered some of the best people of Daytona and the peninsula, and the beautiful gowns of the ladies, together with the full dress of most of the gentlemen blended pleasantly with the handsome surroundings.

Mrs. Spangler's orchestra furnished their usual excellent music for the occasion, and the disciples of tepalcote thoroughly enjoyed the mazes of the dance until a late hour.

Mr. and Mrs. Schmidt, whose hospitality is unbounded, were the recipients of many complimentary testimonials of the satisfaction with which the function was conducted.

The Grand March, led by Col. and Mrs. C. M. Bingham, took place promptly at nine o'clock. The intricate mazes of the beautiful march were charmingly carried out and elicited much applause from the assembled guests.

Mr. and Mrs. Jno. E. Prince and the Misses Pansy and Violet, of Montreal, Canada, who have been stopping at The Pines, left Friday on a trip to St. Augustine.

*Dr. F. H. Houghton, Dentist, Suite 4, Opera House Block, Phone 32. 23-1v

Captain Finley, of the launch Maxine, carried a party up the Tomoka Thursday. The boat had about forty people on board and a very enjoyable day was spent. The party saw sixteen alligators. Friday the Maxine went to the Inlet, and equally as pleasant a day was spent. Captain Finley has the faculty for entertaining the guests of the Maxine, and those who have made trips on this boat are pleased with the manner in which they are entertained.

LEFT FORTUNE OF TEN MILLIONS.

John B. Stetson Laid to Rest in Philadelphia.—Bulk of Fortune Probably Left to His Family.

The body of the late John B. Stetson, the millionaire hat manufacturer of Philadelphia, who died last Sunday near DeLand, was buried in West Laurel Hill, Philadelphia, Thursday.

The Philadelphia North American, in speaking of the late Mr. Stetson, says: "From a semi-authentic source it was learned that the fortune left by the dead manufacturer will approximate \$10,000,000. It is believed that the bulk of this goes to his widow, his daughter, Mrs. Henry H. Rodols, and his two sons.

Numerous charities are not, however, forgotten, and it is said that his provision for the Stetson University at DeLand, Fla., is very liberal. His charities during his lifetime amounted to many thousands of dollars.

According to Mr. Stetson's wish, the funeral services were very simple. The factory closed on the day of the funeral and appropriate action was taken by the board of directors of the company.

Angler Fell Overboard

Richard Hunter, an enthusiastic angler who has frequented the central bridge for several days past, fell overboard Friday and timely assistance was rendered by N. N. Bailey, the bridge tender, and others who happened to be in the vicinity.

Hunter had been in the habit of perching himself on a box which was fastened to a telephone pole. The position was a dangerous one and he lost his balance and fell into the waters. His cries for help were heard and a heavy rope was thrown to him. It took four men to haul him to the top of the bridge.

*For sale, six \$50 Florida East Coast Automobile Association bonds, bearing six per cent interest for \$200. Apply to W. H. Peters, Hotel Desland.

Excellent progress is being made on the new house for Mr. and Mrs. Wm. Freeman, on Pine Street, at Daytona Beach. The house is almost ready for the plastering. Mr. Freeman is doing the work.

LIVELY MEETING IS PROMISED.

City Solons Will Meet Monday Evening.—
Question of City Physician to
Come Up.—The Marshal.

The session of the city council on Monday evening promises in every way to be a lively affair.

Mayor Greene, it is understood, will appoint E. L. Smith, deputy sheriff and night watchman at the depot, as city marshal, to succeed M. H. Zuber.

The friends of the present marshal are doing what they can in his behalf and they are firm in their belief that he can fill the position in a satisfactory manner.

Guests of the Ivy Inn, about twenty in number, were over on the beach Friday, having an oyster roast. A congenial party, a perfect day, plenty of the bivalves and other edibles formed a happy combination that ensured a satisfying day for all concerned.

The mayor when he makes an appointment will have to report the same to the council for confirmation and it is known that the city solons do not altogether coincide with the views of the mayor in the appointment of Smith.

Marshal Zuber has some friends in the council who would vote for his confirmation. It is likely that the positions of street commissioner, city attorney and city physician will be filled at the meeting on Monday evening.

Mr. and Mrs. C. H. Bliss and Miss Nault, of Worcester, Mass., are sojourning at the Ridgewood.

A Poem for Today

TO YOUTH

By Edith M. Thomas

YOU have the rose for token;
I have dry leaf and thorn;
I have the sobbing vesper;
You morning bells at chime;
I would that I were younger,
(Yet you grew never old)—
Would I had less of silver,
But you no less of gold.

A Poem for Today

LOVE'S PHILOSOPHY

By Percy Bysshe Shelley

THE fountains mingle with the river
And the rivers with the ocean;
The winds of heaven mix forever
With a sweet emotion;
Nothing in the world is single;
All things by a law divine
In one another's being mingle.
Why not I with thine?

See, the mountains kiss high heaven,
And the waves clasp one another;
No sister flower would be forgiven
If it disdained its brother.
And the sunlight clasps the earth,
And the moonbeams kiss the sea;
What are all these kissings worth
If thou kiss not me?

A Poem for Today

A SONG OF CONTENT

By James J. Platt

THE eagle nestles near the sun;
The dove's low nest for me!
The eagle 's on the crag; sweet one,
The dove 's in our green tree.
For hearts that beat like thine and mine
Heaven blesses humble earth;
The angels of our heaven shall shine
The angels of our hearts!

A Poem for Today

WHEN THERE'S LOVE AT HOME

Anonymous

THERE is beauty all around
When there's love at home;
There is joy in every sound
When there's love at home.
Peace and plenty here abide,
Smiling sweet on every side,
Time doth softly, sweetly glide
When there's love at home!
Love at home! Love at home!
Time doth softly, sweetly glide
When there's love at home!

In the cottage there is joy
When there's love at home;
Hate and envy ne'er annoy
When there's love at home.
Roses blossom 'neath our feet,

All the earth's a garden sweet,
Making life a bliss complete
When there's love at home!
Love at home! Love at home!
Making life a bliss complete
When there's love at home!
Kindly heaven smiles above
When there's love at home;
All the earth is filled with love
When there's love at home!
Sweeter sings the brooklet by,
Brighter beams the azure sky,
Oh, there's one who smiles on high
When there's love at home!
Love at home! Love at home!
Oh, there's one who smiles on high
When there's love at home!

Salt, the Civilizer.

The use of salt as a necessary sup-
plement to diet has had much influence
in shaping the civilization and explora-
tion of the world. It is most probable
that the oldest trade routes were cre-
ated for the salt trade, as salt and
licence formed the chief necessities
of the ancient days. This was certain-
ly the case with the caravan routes in
Libya and the Sahara, while the routes
of north India were the center of a
large trade before the time of Alexander.

Another interesting fact is that salt
has played a considerable part in the
distribution of man. When it became
absolutely necessary to him, as it did
at an early stage of his development,
he was forced to migrate to places
where it could be obtained. This
brought him to the seashore, where he
gained his ideas of maritime commerce.
Lastly, the preservative effects of salt
on food made long-oceanic voy-
ages possible and thus opened up the
world to commerce and civilization.

"Only Me."

There may be a world of pathos and
even of rebuke in a very few words,
and so the rather thoughtless wife of
a contributor of ours discovered recent-
ly. She has two sweet little children,
both girls, and, almost without know-
ing it, she made a pet and favorite of
the younger and prettier child.
"Sweet," as she called her, had every
care and attention lavished upon her,
and good natured neglect was more or
less the portion of the elder.
The mother was sitting in her bed-
room quietly reading recently when the
soft patter of tiny feet sounded on the
stairs.
"Is that you, Sweet?" she called.
"No, mamma," was the sad reply;
"it isn't Sweet—it's only me!"
That pathetic little "Only me!" haun-
ted the wife of our contributor for long-
er than she would have cared to admit,
but a change has since marked her
treatment of her eldest born.—London
Tit-Bits.

An Honest Thief.

On leaving a Paris theater a German
gentleman felt for his watch. It was
gone. Having a strong suspicion, he
laid violent hands on a man in the
crowd, who quietly gave up the ticker.
When he got home, he found his own
watch lying on the table.—Paris Jour-
nal.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its farthest extreme and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 28, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of to-day, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bays and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the amplexiclimb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions. The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, marbled and shelled roads and streets, rendering it the

Wheelman's Paradise
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesium

and iron, and holds sulphur in the shape of gas, which soon passes away. **The Population of Daytona** proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach which are properly a part of the town and population.

Daytona Beach lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect as Daytona Beach.

Automobile Race Meet.
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a barely visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicyclists speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled palm fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the bridge which spans the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebbside, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grown veteran of many summers, can safely enjoy the luxury of a sea bath while the strong and expert swimmer can venture out further with the strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula
lying between river and ocean is one half mile wide, and is rapidly improved, and there are many fine cottages and several good hotels, a opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature
at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona. At the foot of Ocean Boulevard, Seabreeze, a pier reaches 500 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavale, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon. Individuals of them ranging from fifteen to thirty-five pounds in weight not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean is equally famous for its fine fishing and the varieties that abound in the can are present in the river. Ex-perienced anglers and dogs may be had at reasonable prices.

Of course this woman will know better hereafter and will come to our store for her shoes.

How is it with you Madam? Have you been here and made a shoe saving besides getting excellent shoes.
